

KR Network Cloud

Technology Pvt Ltd

Docker

Hours: 20

Introduction

Introduction to Server Provision

Vms Base Provisioning difficulty

OS Virtualization Introduction

Hardware Virtualization vs. Os virtualization

Docker Introduction

Docker Architecture

Use case of Containerization Application

Setting Up Your Environment

Setup machine on Cloud & on-premises

Installation Docker

KR Network Cloud

Technology Pvt Ltd

Learning the Basics of Docker

Docker Images and Containers

Docker Hub

Docker Image & Container basic Operation Commands

Creating Containers

Executing Container Commands

Docker Logging

Expose Contained for world Network

Port Understanding

Expose container for external Network

Build Docker Image

Image modification

Manually Docker image Build process

Install custom BINS/LIBS into the Docker images

KR Network Cloud

Technology Pvt Ltd

Docker Storage

Stateless and state full Application Understanding

Provide persistent storage for container

Create Docker Volume

Docker Data Backup Solution

Docker Images File

Introduction to the Docker file

Write Docker file for custom application

Image History

Saving and Loading Images

Docker Network

Understanding Bridge Network

KR Network Cloud

Technology Pvt Ltd

Creating custom Network for Docker Container

Establish Communication between Container

Docker Registry

Introduction Docker registry

How to use Public Dockers Registry

Setup Internal Dockers registry

Maintain Image over internal Dockers registry

Docker Compose

Installing Docker Compose

Compose Commands

Creating a Compose File

Using Volumes and Networking with Compose

KR Network Cloud
